

## I Fall

Bm A G  
You were the voice that broke the silence  
Bm A G  
You were the eyes that looked into mine  
Bm A G F#m G  
You were the hand laid so peacefully upon me

Spinning still my head can't figure You out  
The silence thickens in the thought of You  
Your presence draws to me revealing  
What I cannot define

Bm A G Bm A G  
*I fall in love with You*  
Bm A G F#m G  
*And all this world is gone*

I'll find a voice to bring You honor  
If you could only give me the melody to carry  
The affection that my heart knows  
but never found the song

D A  
*I'm on my knees*  
D/F# G F#m G  
*So gracefully you come to me*  
F#m G  
*Sweet Jesus*
