

Our God Reigns-Delirious

C

40 Million babies lost to God's great orphanage
100 million faces staring at the sky
The West has found a gun and it's loaded with 'unsure'

C

It's a modern day genocide and a modern day disgrace
Wondering if this HIV will ever pass them by
Nip and tuck if you have the bucks in a race to find the
cure

G

If this is a human right then why aren't we Free?
The devil stole the rain and hope trickles down the plug
Psalm 139 is the conscious to our selfish crime

F/A

C

The only freedom we have is in a man nailed to a tree
But still my Chinese take away could pay for someone's drugs
God didn't screw up when he made
you

(3rd Verse only has vocals, the other verses are instrumental
during this part)

He's a Father who loves to parade you
